

A non-profit marine conservation organization comprised of thousands of recreational anglers and coastal outdoor enthusiasts.

The purpose of **Coastal Conservation Association Maryland** is to advocate for the health and sustainability of our marine resources and to **conserve, promote** and **enhance** the present and future availability of these public resources.

MISSION

CCA MD is committed to enhancing the interaction, education and angling enjoyment of its members through events, tournaments, seminars and meetings. It is our resolute belief that an organization with a close-knit, well-informed and active membership can achieve profound results in conservation while cultivating the individual recreational success and enjoyment of its members.

HISTORY

CCA MD was formed in 1995 by 100 avid recreational anglers who were concerned about the lack of a strong conservation voice in striped bass fishery management policy. Since then, CCA MD has grown to more than 2,000 members and has achieved significant improvement in fisheries management policy, natural resource law enforcement, aquatic habitat restoration and enhancement, and natural resource conservation. CCA MD support comes from conservation-minded anglers of all kinds including those who troll, live-line, jig, crab, fly-fish, and guide professionally. CCA MD consists of a volunteer network anchored by chapters in Annapolis, Baltimore, Greater Washington, Kent Narrows, Mid-Eastern Shore, Pax River, Chestertown, Lower Shore and the Central Maryland Region.

RECENT ACHIEVEMENTS

Promotion of a Conservation Based, Resource-First Management Approach

Support for Science-Based Fisheries Management Policies

Support for Local STEM Education Programs with Oyster and Habitat Curriculum, and Hands on Projects

Enhancing Marine Habitat with Community Built Artificial Reefs

Legislative Protections of the Chesapeake Wild Oyster Population

Supporting the Passage of the 365 Day Recreational Fishing License Bill
